

## HERE'S WHERE THE HERALD'S INTERVIEWER TELLS TALES

Another Reason for the "Captain" Worn by Mr. Burbidge Discovered—District B's Men Candidates to the Front—More Brand New Contest News.

Some folks probably hold the idea that the only reason that John B. Burbidge wears the title of "captain" is because he was formerly captain of police. That is only a part of the reason. The whole story is interesting. The Herald interviewer found out all about it yesterday afternoon. And trusting to the good nature of "Captain" Burbidge and members of his family, the interviewer is "going to talk out of school."

"Cap" wasn't at home. Neither were the Misses Burbidge. Mr. Burbidge was in and explained laughingly that it was just by the rarest luck that she was found home.

"We are a busy family," said Mrs. Burbidge. "You see, Mr. Burbidge is a candidate for sheriff on the Democratic ticket. I am nearly always out working for him. Our two daughters, Vera and Edna, are out working for him, too, but are confining their combined energy to furthering his interests in another capacity and of importance. This second cause for energy is his candidacy in the Herald election contest. And Mr. Burbidge is out working for himself, both. Aren't we the 'hustling' family?"

And Mrs. Burbidge laughed again. Edna, a most attractive young lady, has been doing noble duty and has made her father's vote in the Herald competition a handsome one. But she demands a major portion of her time and attention. Miss Vera has taken up the management of her father's campaign. This means a continuation of the good work. Both young ladies are charming and their attractiveness, coupled with their ability to talk Herald election contests to the practical newspaper reader and advertiser, spell vote-getting. And Captain Burbidge's universal popularity is still another factor in making him a strong contestant. Twenty years of service in Salt Lake's police department without a day's interruption, and the high character of his private life, his high position in public life is without a blemish. As a public citizen he is a sterling character, as a private citizen he is a high custodian of good fellowship, good nature and general goodness.

You can't say that Captain Burbidge is a man whom enemies can't harm for the simple reason that he has no enemies.

But about the story regarding the title of "Captain." It came up during the conversation between the Herald's interviewer and Mrs. Burbidge. "I guess I am first lieutenant," Vera, second lieutenant and Edna third lieutenant," she said. "We are a small army all by ourselves and no officers would hinder us with our campaigns than we are. It is good enough for a parody. If I were a song writer I'd sing:

"Mother's out campaigning,  
And so is Sister, too,  
Father's busy likewise,  
Edna Sister's out campaigning."

It was jolly talking with Mrs. Burbidge. A moment later the conversation assumed a more serious turn, though not one whit less delightful. "Mr. Burbidge and all of us dread contests as a rule for they seem simply 'schemes' that the Herald competition is different. It was an attractive project and its attractions so evidently for all," continued "Cap's" first lieutenant. "When I tell you we have always kept our affairs and yet, as you see, we are all interested now. I imagine you need little more light as to how we have won the Herald's competition." This left little to be desired, as the speaker had stated.

So Captain Burbidge and his three lieutenants

tenants are a small army fighting its way to two victories. Salt Lake county is to have a sheriff in the person of a man who has been the lawbreaker's worst fear for years and the next sheriff of Salt Lake county is to be a man who has been the lawbreaker's best friend.

His own popularity and energy and the popularity and energy of the rest of the family are mighty weapons at any rate. The former captain of police won a gold watch offered as a special prize by The Herald for the four candidates showing the biggest number of votes a week ago Saturday. He was one of them, so his campaign has already borne fruit. And he is a beauty and well worth the effort required to get it.

C. H. Carlquist, the wide-awake real estate man who heads district B, must look to his laurels for there are six other men candidates in his district and all are to be reckoned with. All have been working quietly but none less effectively and several are likely to take a jump most any day. Thomas J. Snare of 22 West 32nd South, for instance, is alive to the opportunities offered him by his candidacy. He is quiet and unassuming, but little on local affairs. Mr. Snare has been a Salt Lake for a long time, or rather, as "much of it as he has enjoyed living so far," as he said jocularly. He is widely known and every acquaintance is a friend. This wide circle of acquaintance offers a fertile field for energy and Mr. Snare is a natural born politician. He is quiet and unassuming, but in short one of those altogether likeable fellows who gets to a goal without shouting. He gets there in his splendid style just the same.

There are dozens of wide-awake persons entered in this great election contest and there is room for others. You don't have to put yourself on a level with a pedlar to reap the rich rewards offered. This is a tip-top business proposition. You have something to offer which everyone wants in exchange for what you want. You simply speak to friends and acquaintances and mention The Herald and your votes to the Contest Editor. You will in all probability win a prize. Whether it is the \$2000 home in Newhouse park, an automobile, a diamond ring or a set of mahogany furniture, the award will more than reward you.

There are no other restrictions; the chief aim of the newspaper in arranging this competition was to provide a plenteous of prizes, not a book of rules and regulations. Find out by consulting the Contest Page in this issue what district you or your friend lives in, then simply send in the name and a word to friends to do the rest. Turn to that Contest Page—you will find it the greatest collection of interesting reading you have come across for many a day.

Over the list of candidates and you will need no further word as to the "difference" this contest has from all others which have ever been instituted in Salt Lake. "Get in among the skyscrapers" is the timely and sensible tip of a local real estate man. The Herald is a local newspaper and it is a local contest. Buying real estate is beyond a lot of us, but this contest is a real opportunity at the door of every man or woman or young person in good standing in the city. It is a real opportunity to buy real estate or not. The Herald's tip is a good one for you. Get in and you'll save a purchase.

sent to the committee. Another meeting is to be held tonight when a chairman will be chosen and plan of campaign outlined.

No nomination has been made by the "Americans" for constable, but it is understood that Henry Steele will be named tonight.

**Taxpayers Slow.**  
There is a most remarkable slowness being manifested by the taxpayers of Weber county in the paying of their taxes this fall. A visit to the office of Treasurer Chambers yesterday revealed the astounding fact that, out of a total of \$324,000, but \$32,000 had been paid in. This includes the period from the time the office opened for the collection of the taxes, on Sept. 1, to and including yesterday. Payments are expected to come in more rapidly in the future, however, as the big canneries and other institutions will soon be dispensing thousands of dollars among the farmers.

**In the Police Court.**  
Because they sold liquor to minors, K. Yatsugawa and H. Matsajima were yesterday fined \$5 each by Judge Murphy in police court. Charles Kanen was up on the charge of having violated the laws by selling liquor on Sunday, and was fined \$2.

George Gavros, a Greek who stole a marble slab used in mixing candy from the Contos confectionery store, was discharged. Henry Housman, charged with cruelty to animals, was sentenced to pay a fine of \$5.

**Colored Democrats Meet.**  
There was a meeting of colored Democrats in their rooms last evening which was addressed by Chairman T. D. Johnson. S. S. Smith, Democratic candidate for the senate, and W. P. Bosser, the gentlemen confined their remarks to a general discussion of the political situation from a Democratic standpoint, touching but little on local affairs. Mr. Bosser, however, said that the Republicans were undoubtedly scared, as they were showing unusual activity. Two or three colored speakers also addressed the meeting.

**May Be a Joke.**  
A bottle has been found floating in the waters of Great Salt Lake, within which was a slip of paper bearing the inscription: "I have committed suicide, and directing the finder to look under the Ramberg bridge, where it crosses the Weber river and he could find the man's effects." The police are convinced that it is a practical joke, but will investigate the matter just the same.

**County Commissioners Meet.**

The board of county commissioners held a short session yesterday morning and appointed Lillian Fowler as registration agent in the Fifteenth Ogden district to fill the vacancy caused by the death of Gordon A. Grant. Reports were received from various road districts and from canyon as to the progress of the work. The sprinkling in the canyon was ordered discontinued for the winter.

**Gives a School Site.**

Yesterday afternoon D. H. Adams decided to the board of education of Ogden one and a half acres of land in Block 24, plat C, Ogden City survey, upon which a modern school building will be constructed next spring. The property lies between Jackson and Van Buren avenues on Twenty-third street, and is in a section of the city where a building has long been needed.

**Ogden Briefs.**

A 10-pound boy has been born to the wife of W. H. Adams.

C. L. Berry and F. Smith, of Ely, Nev., are in the city.

James Harrop is back from the northwest.

Professor George R. Kirkpatrick is to lecture this evening at the Weber Stake academy hall.

The funeral services over the remains of Mrs. Elizabeth Kingsford will be held at 2 o'clock this afternoon from the Fourth ward meeting house.

Arvin Anderson, a guard at the State industrial school, died at his home on West Second street, Sunday night, as the result of an attack of la grippe.

Clarence H. Hunter, the young son of Mr. and Mrs. Alex. Hunter of Slaterville, died yesterday morning after a brief illness from scarlet fever.

A marriage license was issued yesterday to Edward W. Benton of Oakland, Cal., and Mrs. Elizabeth P. Clark of Ogden.

A motion for a new trial has been

filed in the case of R. A. Carroll and J. D. Gardiner vs. Southern Pacific company.

Clifford Ashby, of the University of Utah Glee club, attended the conference of the Mutual Improvement associations at the tabernacle Sunday and sang two solos at the evening session.

Theatrical employees of the city are agitating the organization of a branch of the theatrical stage employees' union in Ogden. Such an organization once existed here, but failed.

The new auto inspection car visited Ogden for the first time yesterday. The car is constructed for track inspection and is capable of seating four persons comfortably at 2 o'clock.

Mrs. Martha Hansen, wife of Louis Hansen, died at the Ogden General hospital yesterday morning as the result of an operation for appendicitis. The funeral services will be held from the Warren meeting house Wednesday afternoon, at 2 o'clock.

In the district court yesterday morning a decree was ordered entered in the case of Minnie Brown, administrator, vs. the Union Pacific Railroad company, in favor of the plaintiff in the sum of \$95.50. Harry Pattison left yesterday for California.

Mrs. E. C. Manson, wife of Superintendent Manson of the Southern Pacific, returned yesterday morning after an extended trip through the east and south in company with Mrs. Calvin, wife of Vice President and General Manager Calvin of the same road.

The regular monthly stake priesthood meeting of North Weber stake was held in the Third ward meeting house Sunday afternoon. There was an unusual large attendance and the reports of officers for the month were received and the work for the coming month outlined and discussed.

Wednesday and Thursday will be the paydays respectively of the Union Pacific and Southern Pacific in this city. The Union Pacific pay checks will arrive today and will be distributed tomorrow. Tomorrow the Southern Pacific pay checks will arrive and the men will be paid off the day following.

At the Southern Pacific shops every day upwards of forty engines are turned out after having been repaired.

Ogden was visited yesterday by a light snowstorm, which began shortly after noon and continued throughout the day. The fall was so light, however, that the snow melted as fast as it struck the ground, turning the streets into mud.

**OLD RESIDENT SUCCEUMBS**

**Thomas Aubrey Passes Away After Being Incapacitated Ten Years by Paralysis.**

Thomas Aubrey, for many years a resident of Utah, died at his home yesterday from paralysis. Mr. Aubrey was born at West Cromwich, Staffordshire, England, Nov. 25, 1827. He was one of the early

Thomas Aubrey.

converts of the Mormon faith, joining that church in 1849. He came to Utah in 1868, where he remained until 1884, when he became a missionary to England for

## HEWLETT'S TEAS

Will invigorate and strengthen you for a better day's work

two years. Mr. Aubrey was in business in Salt Lake for many years. About ten years ago he was stricken with paralysis and was forced to retire from active pursuits.

He is survived by ten children, five sons and five daughters. They are William A. Thomas, Jr., and Albert Aubrey of Salt Lake, and Lorenzo and Frank Aubrey of Park City; Mrs. Samuel Gould, Mrs. T. A. Hooper, Mrs. Sarah Hull and Araminta and Louise M. Aubrey. Mr. Aubrey also leaves twenty-five grandchildren and six great-grandchildren.

The funeral arrangements will be announced later.

## QUESTION OF CONSOLIDATION

To Be Considered at Meeting of Commercial Club Governors Next Thursday.

One of the most important questions which now absorbs the attention of Salt Lake's business men—the proposed consolidation of the Commercial club and the Manufacturers & Merchants' association into one body, with the sole object and aim of advancing the city's business interests—will probably be definitely decided Thursday noon, when the board of governors of the Commercial club meets to pass upon it.

The consolidation scheme has been in the air for months past, committees from both bodies having met and conferred upon its advisability and upon the means of effecting it. As the big membership of both organizations is said to be almost unanimously in favor of the idea, the final decision of the Commercial club is awaited with widespread interest.

The board of governors will also appoint committees from the club's membership to make arrangements and plans for the entertainment of the Grand Army of the Republic and the thousands of visitors which the big convention will draw here next year.

The Salt Lake Real Estate association will meet tomorrow noon in the Commercial club to take action upon several important matters which are now pending before that body.

## CHRISTENSEN'S RETORT.

Presents Figures to Show High School Teachers Are Favored.

City Superintendent of Schools D. H. Christensen has issued a statement showing the comparative number of pupils, teachers, the salaries of principals, the clerical assistance given principals, and the assistance given teachers of forty of the principal high schools of the United States. There has been an impression among some people that the local high school is somewhat overcrowded and that the teachers are overtaxed on account of insufficient numbers.

The tabulation issued by Mr. Christensen shows that this is not the case, and proves that the teachers in the local school are given more assistance than nearly any other school gives; that the number of pupils given each teacher is surprisingly low, and that the outside assistance for the principal is generous in the extreme.

The tabulation issued by Mr. Christensen shows that this is not the case, and proves that the teachers in the local school are given more assistance than nearly any other school gives; that the number of pupils given each teacher is surprisingly low, and that the outside assistance for the principal is generous in the extreme.
